Education

Ph.D	Computer Engineering	University of Waterloo	2013
M.S.	Computer Science	Shanghai Jiao Tong University	2009
B.S.	Computer Science	Shanghai Jiao Tong University	2006

Positions

University of Massachusetts Boston

2023- Associate Chair, Interim Chair (Fall 2023) Department of Computer Science

University of Massachusetts Boston

2021- Associate Professor, Department of Computer Science

University of Massachusetts Boston

2015-2021 Assistant Professor, Department of Computer Science

Dartmouth College

2014-2015 Postdoctoral Researcher, Department of Computer Science

Executive Summary

Xiaohui Liang is an Associate Professor with the Department of Computer Science at the University of Massachusetts, Boston (UMB). He was a Postdoctoral Researcher with Prof. David Kotz at Dartmouth College in 2014-2015. He received a Ph.D. degree in Computer Engineering, University of Waterloo, in 2013, with an award of Outstanding Achievement in Graduate Studies, under the supervision of Prof. Sherman Shen and Prof. Xiaodong Lin. He received the BSc and MSc degrees in Computer Science from Shanghai Jiao Tong University, China, in 2006 and 2009, respectively. His research interests include mobile health, mobile system, and network security. He received the Early Career Research Excellence Award from UMass Boston College of Science and Mathematics in 2020, the Early Career Award for Excellence in Scalable Computing from IEEE Technical Committee on Scalable Computing in 2017, the Best Land Transportation Paper Award from IEEE Vehicular Technology Society in 2017, the Internet of Things Technology Research Award from Google in 2016, and the Best Paper Awards in BodyNets 2010, IEEE IPCCC 2020, and IEEE ICC 2021. He is an ACM Member and an IEEE Senior Member. For more information, see <http://faculty.umb.edu/xiaohui.liang/>.

Publishing: 110+ refereed publications. **Google Scholar Citation is 11066, and H-Index is 52.**

Single PI, \$1.18m, NSF/NIH R01 "SCH: INT: Collaborative Research: Exploiting Voice Assistant Systems for Early Detection of Cognitive Decline," with Co-I John Batsis from the University of North Carolina at Chapel Hill and Co-I Robert Roth from Dartmouth Hitchcock Medical Center. [Link]

Lead PI, \$350k, NSF "NeTS: Small: Collaborative Research: Towards Privacy-Preserving Autonomous Vehicle Sharing Services," with PI Mohamed Mahmoud from Tennessee Technological University. [Link].

Mentoring: Four PhD students in total. Two students recently graduated; one joined Clark University as visiting assistant professor (2018-) and another joined Shaqra University, Saudi as assistant professor (2019-)

Teaching: Developed Cybersecurity in the Internet of Things (2018-20), Applied Cryptography (2019-20)

Internal Services: Institutional Review Board (University-level), Academic Affairs Committee (College-level), Personnel Committee (Department-level)

External Services: NSF Panelist (2015, 2017, 2021), Associate Editor of IEEE Internet of Things, Guest Editor of Smart Health Journal, Track Chair of IEEE International Conference on Parallel and Distributed Systems.

Funding

NIH NIA P30-AG073104 (Pilot Award), \$60,522 Direct for 6/2023 - 5/2024 (UMB Direct \$21,100) <i>Geriatric Functional Assessment System Using Passive Wearable Sensing and Deep Learning</i> Collaborators: MPI Batsis (University of North Carolina at Chapel Hill)	MPI
NIH NIA R01-AG067416, \$1,179,714 for 2019-2023 (UMB share \$596,844) <i>Exploiting Voice Assistant Systems for Early Detection of Cognitive Decline</i> Collaborators: Co-Is John Batsis (University of North Carolina at Chapel Hill) and Robert Roth (Dartmouth Hitchcock Medical Center), and Consultants David Kotz (Dartmouth College) and Brian MacWhinney (Carnegie Mellon University).	Single PI
NSF NeTS, \$349,993 for 2016-2020 (UMB share \$199,994) <i>Towards Privacy-Preserving Autonomous Vehicle Sharing Services</i> Collaborator: PI Mohamed Mahmoud (Tennessee Technological University).	Lead PI
UMB Joseph P. Healey Research Grant, \$7,500 for 2018 <i>Efficient and Privacy-preserving Human Contact Tracing for Infection Detection</i>	PI
UMB Joseph P. Healey Research Grant, \$7,500 for 2016-2017 <i>Towards Privacy-preserving Data Release in Mobile Healthcare</i>	PI
UMB Startup Funding, \$90,000 for 2015-2020	PI

Honors and Awards

• Presidential Poster Award, American Geriatrics Society	2022
• Best Paper Award, ICC (International Conference on Communications) (15/1881)	2021
• Best Paper Award, IPCCC (International Performance Computing and Communications Conference) (2/99)	2020
• LightTouch paper has been highlighted in IEEE Computer's Spotlight on Transactions column	2020
• Early Career Research Excellence Award from UMB College of Science and Mathematics	2020
• UMB nominee for the 2020/21 Blavatnik National Awards for Young Scientists (1 out of 3)	2019/20
• Early Career Award for Excellence from the IEEE Technical Committee on Scalable Computing	2017
• Best Land Transportation Paper Award from the IEEE Vehicular Technology Society	2017
• Internet of Things (IoT) Technology Research Award from Google	2016
• Accomplishment with Distinction on An Introduction to Evidence-Based Undergraduate STEM Teaching, a teaching course from Coursera	2014
• Outstanding Achievement in Graduate Studies, University of Waterloo	2013
• Ontario Graduate Scholarship, University of Waterloo	2012-2013
• President's Graduate Scholarship, University of Waterloo	2012-2013
• Doctoral Thesis Completion Award, University of Waterloo	2013
• Faculty of Engineering Graduate Scholarship, University of Waterloo	2012-2013
• Ontario Research and Development Challenge Fund Bell Scholarship	2012
• Graduate Scholarship, University of Waterloo, five consecutive terms	2010-2011
• International Doctoral Student Award, University of Waterloo	2009-2012
• INFOCOM 2011 Student Travel Grant	2011
• Shanghai Excellent Master Thesis Award	2011
• Best Paper, BodyNets (International Conference on Body Area Networks)	2010

-
- National Excellent Graduate Scholarship, China 2007
 - Excellent Graduate, Shanghai Jiao Tong University 2006
 - Excellent Undergraduate Thesis Award, Shanghai Jiao Tong University 2006
 - First Price, 18th National Contest in Mathematics, Hubei Region, China 2002

Research Experience

University of Massachusetts Boston

Sep 2015-Now

- NIH/NIA P30-AG073104 (Pilot Award) "Geriatric Functional Assessment System Using Passive Wearable Sensing and Deep Learning," 2023-2024
- NIH/NIA R01 grant "SCH: INT: Collaborative Research: Exploiting Voice Assistant Systems for Early Detection of Cognitive Decline," 2019-2023
- NSF: NeTS: Towards Privacy-Preserving Autonomous Vehicle Sharing Services, 2016-2020
- Enhancing Security, Privacy and Characteristic Inference of Voice Assistant Systems, 2018-now
- Wireless Signals and Channel State Information for Physical Sensing, 2016-now
- Secure Wearable Applications, 2014-2017
- Security, Privacy, and Trustworthiness in Healthcare System, 2010-now

Dartmouth College

Jan 2014-Aug 2015

- Developing new efficient and secure communication techniques for emerging wearable health devices, implementing the proposed techniques using hardware compatible with wearable health devices, evaluating the performance and security properties in a physical environment, and testing the usability with extensive user studies. Python, C programming in Embedded System
- Exploiting effective and non-agnostic privacy preservation methods for wearable health technology. The goal is to minimize the information disclosure to the service providers while having the maximum desired health and fitness benefits for users. Implementation of machine learning algorithms using C in embedded system

University of Waterloo, Canada

May 2009-Dec 2013

- Designed secure, efficient, and privacy-preserving communication techniques for mobile communication systems, such as, e-healthcare system, mobile social networks, and smart grid
- Simulated a mobile social network by using the real-trace data, implemented and validated the techniques in a simulated environment, Java programming in Linux
- Implemented Bluetooth communications between iPhone with CIM sensors, read and modified C# programs from Btstack open source
- Developed a Gesture-based Electronic naMecard application (GEM) in Android for users to share electronic namecards using their Smartphones with Gesture-based authentication adopted to ensure security.
- Maintained and updated both hardware and software for all computers, manage computer accounts, and assist each member to be familiar with facilities and research resources in the Broadband Communications Research (BBCR) Laboratory

National Institute of Information and Communications Technology, Japan

Nov. 2008

- Visiting Theoretic Foundation Group and Exchanging research ideas

Trusted Digital Technology Laboratory, Shanghai Jiao Tong University

Jul 2004-Jul 2006

- Designed secure, efficient, and privacy-preserving encryption and signature schemes and implemented attribute-based encryption algorithms, C++ programming in Linux

Microsoft Research Asia, China

Jul 2005-Sep 2005

- Examined and analyzed Media Access Control Layer Misbehavior as a research intern in the Wireless and Networking Group

Mentoring Experience

While on the faculty at the University of Massachusetts Boston:

- Rishank Singh, Ph.D. student under my supervision at UMB, Sept 2024-Now
Develop Wearable Solutions for Physical Function Assessments on Older Adults
- Kristin Qi, Ph.D. student under my supervision at UMB, Sept 2023-Now
Speech Analysis for Early Detection of Cognitive Decline
- Youxiang Zhu, Ph.D. student under my supervision at UMB, Sept 2020-Now
Speech Analysis for Early Detection of Cognitive Decline
- Bang Tran, Ph.D student under my supervision at UMB, Jan 2019-Now
Security and Privacy of Smart Home and Voice Assistant Systems
- Mohammad Hadian, obtained Ph.D degree under my supervision at UMB, Jan 2016-April 2019
Current position: *Visiting assistant professor at Clark University*
Thesis: Enhancing User-oriented Security and Privacy in Emerging Data Sharing and Sensing Services
- Thamer AlTuwaiyan, obtained Ph.D degree under my supervision at UMB, Sept 2015-Feb 2019
Current position: *Tenure-track assistant professor at Shaqra University*
Thesis: Toward Data Privacy Related to the Internet of Things

While working at Dartmouth College:

- Aarathi Prasad, obtained Ph.D degree at Dartmouth College, (THaW project) Jan 2014-Aug 2015
Current position: *Tenure-track assistant professor at Skidmore College*
Exploiting trustworthy issues in mobile healthcare applications, focusing on how to balance the benefits and privacy risks of sharing health information with service providers, and developing methods to preserve user privacy while minimizing user effort and maximizing the benefits
- Timothy Pierson, obtained Ph. D degree at Dartmouth College, (THaW project) Jan 2014-Aug 2015
Current position: *Research Assistant Professor at Dartmouth College*
Exploiting security issues of medical device management in small health networks in which most operations and updates need to be done by clinicians or users with limited IT knowledge
- Tianlong Yun, obtained Master degree at Dartmouth College, Jan 2014-Aug 2015
Current position: *Software Engineer at tbDEX*
Developing a fitness tracking application using wearable health technology

While at the University of Waterloo:

- Nan Chen, was an undergraduate exchange student at the University of Waterloo Sep 2013-Dec 2014
Current position: *Tenure-track assistant professor at Tennessee Technological University*
A survey of big data analysis and energy efficiency for e-healthcare
- Wei Zhang, was an undergraduate co-op student at the University of Waterloo Jan 2012-Jul 2012
Implement Bluetooth communication between iPhone/iPod and CIM devices
- Bin Liu, was an undergraduate exchange student at the University of Waterloo Sep 2009-Dec 2009
Implement an attribute-based encryption system for e-healthcare system
- Jianqiao Shao, was an undergraduate co-op student at the University of Waterloo May 2009-Sep 2009
An investigation on research of e-health system security

Teaching Experience

CS413/613 Applied Cryptography, UMB

Spring/2019-2025

CS442/642 Cybersecurity in the Internet of Things, UMB

Spring 2018/2019/2020, Fall 2021/2023/2024

IT443 Network Security Administration, UMB

Spring 2016/2017, Fall 2017/2018, Spring 2021

CS 240 Programming in C, UMB

Spring 2017/2018, Fall 2019

CS187 Science Gateway Seminar, UMB

Fall 2015

Internal Services

University-level:

Institutional Review Board (IRB) Committee, Participating monthly IRB meetings and reviewing human subject protocols in research projects 2018-Now

Panelist on Design Next-Generation, Useful, and Usable Digital Health Technologies at University of Massachusetts "zoom summit" in Data-Driven and Technology-Informed Precision Health 2021

Panelist on Trustworthy AI systems at University of Massachusetts "zoom summit" in Artificial Intelligence, Robotics and Data Science 2021

College-level: Academic Affairs Committee

2019-Now

Reviewing and recommending all new course proposals and all proposals for changes in existing undergraduate courses and course credits.

Department-level: Personnel Committee

2019-Now

Reviewing annual faculty report and reappointment through the tenure decision year (fourth-year review), tenure, promotion to the rank of associate professor, and promotion to senior rank.

External Services

Membership

- ACM Member (2014-), IEEE Member (S'09, M'14, SM'20), ISCA Member (2020-)
- IEEE Young Professionals (2013-), IEEE Communications Society Member (2009-), IEEE Signal Processing Society (2021-), IEEE Computer Society Technical Committee on Scalable Computing (2017-), IEEE Vehicular Technology Society (2019-)

Editors

- Associate Editor of IEEE Internet of Things 2019-2024
- Associate Editor in Human-Media Interaction, Frontiers in Computer Science, 2022-
- Guest Editor, "Data Processing, Privacy and Security Challenges for Fog and Cloud Computing in the Internet of Things," Sensors MDPI 2025
- Guest Editor, "Protecting Privacy in Neuroimaging Analysis: Balancing Data Sharing and Privacy Preservation," Frontiers in Neuroinformatics, 2023
- Guest Editor, "Security in Medical Cyber-Physical Systems," Smart Health (Elsevier), 2017

Chairs

- Program co-chair of IEEE Healthcom 2026
- Program co-chair of Security, Privacy, and Trust Track for IEEE MetaCom 2025
- Program chair of e-Health Track for IEEE ICC 2022
- Program co-chair of Security Track for IEEE International Conference on Parallel and Distributed Systems (ICPADS), 2020
- Program co-chair of the IEEE International Workshop on Security, Privacy, and Trustworthiness in Medical Cyber-Physical Systems (MedSPT), 2016
- Local co-chair of International Conference on E-health Networking, Application, Services (Healthcom) 2016
- Publicity co-chair of IEEE Communication and Network Security 2025,
- Publicity co-chair of ICC Workshop on Secure Networking and Forensic Computing 2014
- Publicity co-chair of INFOCOM workshop on Security in Computers, Networking and Communications 2011

Technique Program Committee

- INFOCOM 2016, 2017, 2021-2023
- Globecom 2013, 2016-2019
- ICC 2014, 2018, 2021-2022, 2024
- ICC 2023
- CNS 2022-2023

Reviewer for Journals

- ACM Computing Survey
- ACM Springer Mobile Networks and Applications (MONET)
- IEEE Journal on Selected Areas of Communications (JSAC)
- IEEE/ACM Transactions on Networking (TON)
